

Report Card Options

Report cards are great for parents to view the progression of their child's skills. This is how our program will determine when your athlete is ready to move to the next level class. These skills will be tracked in your parent portal for you to view.

For the 2020-2021 season we will be implementing an updated report card system. This will include 3 different options for continuous evaluation during the season. We will now be able to evaluate skills in the following ways:

1. When your coach sees that a new skill is mastered consistently during a tumbling class, they will have that skill checked off on their report card.
2. If you would like a full report card evaluation done, you can book a 30 minute tumbling private with one of the designated approved instructors at your location. Please ask your gym manager for a list of these instructors.
3. We will host a free evaluation period every 3 months on a specific time and date at each location. You will register for these online the same way you would for a clinic, but at no charge. Check with your gym manager for dates and times.

By utilizing all 3 options we will be able to track skills more efficiently and this process should be much smoother for every athlete involved. If you have any questions feel free to contact us, we are looking forward to an amazing season!
